More recording,
more entertainment

Record up to 8.5 Gbyte data or 4 hours DVD quality video on one disk with Philips' new generation DVDRW drive. That's double capacity recording for double the pleasure with the world's first dual layer DVD ReWriter.

With Philips CD/DVD ReWriters, you can now make your own CD/DVDs from whatever source you choose: home videos, downloads from the internet or simply anything you can feed into your computer. Thanks to our superior compatibility, your DVD recordings will play perfectly on most DVD or DVD-ROM players.

Convert your home videos to home DVDs with Philips Save your Tapes. A smart concept, the 'Save your Tapes' kit includes everything you need to convert stacks of tapes into a compact and reliable DVD archive.

Free Internet telephony
that works

By using the Internet to handle telephone functions, VoIP introduces a new era in voice communication. And Philips gives you three new ways to be a part of this revolution. With the VoIP 046, you can now experience bluetooth freedom in your own home. Don't like sitting at the computer? No problem. Just connect the VoIP 121 with a PC and you're free to move around your house while listening to crystal clear sound and voice quality on your DECT phones. That's not all. With the VoIP 021 USB adapter, you can now use your own telephone to access any VoIP telephony provider. So you can enjoy your conversation without the hassle of metering the call. VoIP, the power to be connected.

VOIP 046

VoIP Bluetooth headset

- 160 hours Standby, 6 hours Talk time
- Compatible with all soft-phones and Bluetooth mobile phones
- Free internet telephony
- Fully Plug and Play
- Rechargeable from an USB port
- Adjustable Ear-Hook
- Bluetooth profile HFP1,0, HSP1,1
- Rechargeable Li-Ion battery

VOIP 121

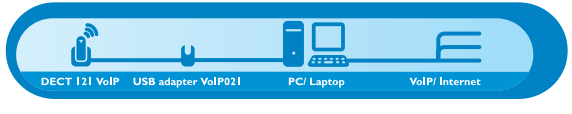
DECT phone and Internet telephony USB adaptor

- Digital cordless phone for internet telephony
- Direct Dial-up from your cordless phone
- Free internet telephony
- Simple connection to your PC
- Phone-to-phone communication via Skype
- Crystal clear sound quality
- Instrumental ring tones

VOIP 021

Internet telephony USB adapter

- Use a cordless home phone for internet telephony
- Allows you to dial from your handset
- Free internet telephony
- Simply connect the adapter to your PC USB port
- Phone-to-phone communication via Skype



Freedom
from wires

Get ready for the next step in wireless freedom with a full range of wireless entertainment devices. Whether you simply want to share your broadband Internet or stream movies, music and pictures, we have the solutions to connect base stations, multiple PCs, printers and even A/V equipment to your wireless network.

Entertainment here, PC there, it is connectivity without wires. Stream music from your PC to your audio system. Keep music stored on the PC while listening to it in another room. Upgrade existing audio and video systems with our digital links. Gain access to a world of entertainment at your fingertips.

Live the game,
feel the vibration

Feel the action and go with the flow of the game. Philips gaming headphones incorporate the unique Sonic Vibes System (SVS) and provide sensational sound quality. SVS feeds back bass sounds so you can 'literally' feel every blow, knock or tremor of the game! These headphones are perfect for console, PC or handheld (portable) gaming devices.

Enhance your interactive experience with our multimedia headsets. They are perfect for chatting, interactive gaming, Internet telephony or simply listening to music. What's more, you don't even need any additional installation software.
